## Bradley School District and B-B Rotary Club partner to provide students access to myON

Summer is a time to enjoy the outdoors, spend time with family, attend sporting events and relax. It is also a perfect opportunity to encourage students to read. Over the summer, many students experience "summer slide", what happens when young minds sit idle over the summer months. Children who do not read over the summer will lose more than two months of reading achievement.

The Bradley School District and the Bradley-Bourbonnais Rotary Club partnered to provide students access to myON. MyON is a personalized collection of more than 5,700 digital books to read over the summer on computers, laptops and other devices anytime, anyplace, while on the go.

To encourage reading this summer, myON created a national reading contest to motivate kids to read and will reward top readers with prizes. The theme of this year's contest is "Read on the GO with myON".
