Bank Accounting

Per the District Memorandum of Understanding Addendum Number One, clubs are not required to maintain a separate bank account to be used solely for District Grants. However, for clubs that utilize more than one bank account for Rotary activities it is required that they designate one bank account for all District Grant related activity. This is to help facilitate in the auditing process, as it will be easier to track funds through one account.

The following are requirements your club must follow for record keeping of any GF received from the District and/or TRF.

- Interest, if any, earned shall be used only on eligible, approved grant activities or returned to TRF
- Grant Funds shall not be deposited in any investment account, including but not limited to mutual funds, certificates of deposit, bonds, or stocks
- No monies will be dispersed until the grant has been approved and proof of matching funds has been uploaded to the District Grant Website
- The GF shall be placed in an account which is to always be named in such a way as to distinguish it from other RC Funds
- Monthly bank statements are reconciled, as received by the Treasurer, and reviewed monthly by the BOD as related to GF

This is a process; as a result a disbursement date of club grant funds is unavailable. However, we hope funds will be disbursed by August 31st.
