November 25, 2020

Dear Cross Timbers Rotary and District representatives,

The Cumberland Presbyterian Children's Home is beyond grateful that your organizations saw fit to support capital improvements to our campus's backyard and our desire to create container gardens for our residents.

Our agency intends to use the \$923.83 remaining in your investment commitment for the following:

- adding minimal irrigation to each container box garden
- adding dirt and potting soil to each container

We anticipate all work for the project to be completed by 12/31/20. However, we are working to identify a vendor who can expedite the work. We will provide updates on timeline, work completion and receipts for your records.

Please continue to work with Jaime Blanton, Chief Advancement Officer throughout. She will be happy to answer questions or facilitate anything you need.

Thank you again for supporting a project that truly improves quality of life and increases normalcy for our residents.

With gratitude,

Gratefully,

Courtney Banatoski
President & CEO
