CITY COMPLETES FOURTH PHASE OF THE GREATER CHEYENNE GREENWAY WAYFINDING SIGNAGE PROJECT

CHEYENNE WY, in 2022, the Rotary Club of Cheyenne donated \$8,000.00 to the Cheyenne Greenway Foundation to help to fund Wayfinding signs for the Greater Cheyenne Greenway.

The Rotary Club of Cheyenne was awarded a grant through the local Rotary District 5440 to help in completing Wayfinding signs for the Greenway. According to the Rotary, “Greenways and Parks are important components of community development, enhancing a neighborhood’s quality of life and pride of place, while preserving important land for water quality and small wildlife” As a service organization, the motto for Rotary is **Service Above Self**, and Rotarians find opportunities to serve both locally and abroad. More information on the Rotary Club of Cheyenne can be found at <https://cheyennerotary.org>

The Cheyenne Greenway Foundation donates to the Greenway annually and provides much needed amenities along the Greenway such as Bike Fix-It Stations, benches, art, drinking fountains, trail counters, wayfinding signage and much more and it’s great when other community organizations, individuals, and businesses want to help make this good work happen! If you are interested in helping to sponsor the next Greenway project, please contact the Cheyenne Greenway Foundation at cheyennegreenwayfoundation@gmail.com for further information.

The City of Cheyenne has utilized these funds to install signage in several locations along the greenway to include sites such as Central High, Yellowstone Underpass, Lions Park and at Laramie County Community College. We think they look great, and they will be a tremendous addition to the shared City/County Greenway system. With over 46 miles of greenway connecting our community to parks, schools and important destinations, the implementation of wayfinding signs is a priority and helps new users and visitors to find their way on the trail system.

An on-line Greater Cheyenne Greenway Map can be found here,
