

Drop Inlet Filter (DIF)

Gutter Bin® stormwater filtration system

CERTIFIED:

- ✓ Full Trash Capture
- ✓ Vector Control Accessible

The patented Gutter Bin Drop Inlet Filter removes pollution from stormwater. It accepts the full line of Mundus Bag® water filters. The Mundus Bag can remove trash, microplastics, sediment, oils, greases and heavy metals to help protect and restore watersheds.

Product Highlights

- Adjustable design fits most any size drop inlet or combo inlet with bent or flat frame (Type 13 & 16)
- Largest adjustable overflow on the market
- Stainless steel construction
- HS-20 load rated - installs below existing storm grate
- Easily removed for maintenance or TV camera access
- Optional sampling port - can be used for vector control
- Variable depth for deep or shallow catch basins
- Rectangular and round models
- Can be used in conjunction with connector pipe screens (CPS) and automatic retractable screens (ARS)
- Excellent pre-filter solution for other downstream filtration or infiltration systems
- 3-year limited warranty

Install and Service

- 5 minute install - **no** confined space entry, catch basin retrofit, or drilling required
- Servicing performed in 2 minutes or less
- Service interval depends upon climate, pollutant load & infrastructure
- Vacuum truck compatible
