RE: COMMITMENT TO PROVIDE SITE FOR WASTE DISPOSAL

We recognize and appreciate how the Toilet for Life (T4L) project will positively impact on the health, environment, water resources, education and economy of our country.

As an urban authority, we confirm that the municipal council will temporarily use the lagoon of Bugiri Main Hospital for waste disposal as a short term measure for T4L project.

In the long-run however, the municipal council will allocate funds to procure a waste disposal site for the project.

Additionally, in partnership with the cooperating organization, a lagoon for waste disposal will be constructed.

We always appreciate your continued support to our community.

Yours,

KATUNDA MUKURU FENARD
TOWN CLERK

CC Mayor
